

# Build Asset Collection App

## OPPORTUNITY

To reduce the volume and realise economic value in the 4 million tonnes of construction waste the Scottish industry sends to landfill annually.

## PROJECT

Planning, co-ordination, designing and development of a tablet-based app to record building materials and contents that could be recycled or reused prior to demolition.

## OUTCOMES

The development of an app that can be used by demolition contractors when assessing buildings being prepared for demolition. This app will facilitate the recording of materials and components which could be reused or recycled.

## SUPPORT

Total Project Value	£29k
CSIC Contribution	£7k

## PROJECT DURATION

December 2017 - October 2017

**Innovation Support:** Process Innovation

**Sub Sector:** Demolition & Preparation
