

4 Edge Timber Planer

Model name: Cube planer

Manufacturer

Weinig

Supplier

Weinig

Description

Automated 4 edge planer for PAR timber.
Includes laser line moulder preview.

Manufactured products

Solid timber and EWP beams
Planing timber beams down to size and
ensuring flat, even finish and square
sections.

Particularly beneficial to the production
of engineered wood products such
as CLT or Glulam which rely upon the
component parts being even and square.
